ROBERTS Susan B. & COWARD W.A. Dietary supplementation increases milk output in the rat. 1

HIBBERT Jacqueline M., JACKSON Alan A. & GRANTHAM-MCGREGOR Sally M. Plasma concentrations of *N*-acetylneuraminic acid in severe malnutrition. 11

MCBURNEY M.I., HORVATH P.J., JERACI J.L. & VAN SOEST P.J. Effect of in vitro fermentation using human faecal inoculum on the water-holding capacity of dietary fibre. 17

BASSAT M. & MOKADY S. The effect of amino-acid-supplemented wheat gluten on cholesterol metabolism in the rat. 25

HOFFER Leonard J., YANG Russel D., MATTHEWS Dwight E., BISTRIAN Bruce R., BIER Dennis M. & YOUNG Vernon R. Effects of meal consumption on whole body leucine and alanine kinetics in young adult men. 31

CICLITIRA P.J., ELLIS H.J., EVANS D.J. & LENNOX E.S. Relation of antigenic structure of cereal proteins to their toxicity in coeliac patients. 39

NÄVERT Barbro, SANDSTRÖM Brittmarie & CEDERBLAD Å. Reduction of the phytate content of bran by leavening in bread and its effect on zinc absorption in man. 47

FORD E.J.H. & SIMMONS H.A. Gluconeogenesis from caecal propionate in the horse. 55

NIELSEN H.K., LÖLIGER J. & HURRELL R.F. Reactions of proteins with oxidizing lipids. 1. Analytical measurements of lipid oxidation and of amino acid losses in a whey protein–methyl linolenate model system. 61

NIELSEN H.K., FINOT P.A. & HURRELL R.F. Reactions of proteins with oxidizing lipids. 2. Influence on protein quality and on the bioavailability of lysine, methionine, cyst(e)ine and tryptophan as measured in rat assays. 75

SOUTHON Susan, LIVESEY G., GEE Jennifer M. & JOHNSON I.T. Differences in intestinal protein synthesis and cellular proliferation in well-nourished rats consuming conventional laboratory diets. 87

DUERDEN Julia M. & BATES C.J. Effect of riboflavin deficiency on reproductive performance and on biochemical indices of riboflavin status in the rat. 97

DUERDEN Julia M. & BATES C.J. Effect of riboflavin deficiency on lipid metabolism of liver and brown adipose tissue of sucking rat pups. 107

SUTTON J.D., BROSTER W.H., NAPPER D.J. & SIVITER J.W. Feeding frequency for lactating cows: effects on digestion, milk production and energy utilization. 117

WILLIAMS Darryl M., KENNEDY F. Scott & GREEN Brenda G. The effect of iron substrate on mitochondrial haem synthesis in copper deficiency. 131

LEIBHOLZ Jane The digestion of protein in young pigs and the utilization of dietary methionine. 137

BELL J.G., COWEY C.B., ADRON J.W. & SHANKS Aileen M. Some effects of vitamin E and selenium deprivation on tissue enzyme levels and indices of tissue peroxidation in rainbow trout (*Salmo gairdneri*). 149

KENNEDY P.M. Influences of cold exposure on digestion of organic matter, rates of passage of digesta in the gastrointestinal tract, and feeding and rumination behaviour in sheep given four forage diets in the chopped, or ground and pelleted form. 159

SAWAYA Ana Lydia & LUNN P.G. Evidence suggesting that the elevated plasma triiodothyronine concentration of rats fed on protein-deficient diets is physiologically active. 175

FORSYTHE S.J. & PARKER D.S. Urea turnover and transfer to the digestive tract in the rabbit. 183

FAIRWEATHER-TAIT Susan J. & WRIGHT A.J.A. Iron availability from peas (*Pisum sativum*) and bread containing added pea testa in rats. 193

ÅKESSON B. & ÖCKERMAN P.A. Selenium status in vegans and lactovegetarians. 199

MATTACKS Christine A. & POND Caroline M. The effects of dietary restriction and exercise on the volume of adipocytes in two intra-orbital depots in the guinea-pig. 207

STANLEY John C. & NEWSHOLME Eric A. The effect of dietary guar gum on the activities of some key enzymes of carbohydrate and lipid metabolism in mouse liver. 215

MENGHERI Elena, SCARINO M. Laura, VIGNOLINI Francesco & SPADONI M. Antonietta Modifications in plasma cholesterol and apolipoproteins of hypercholesterolaemic rats induced by ethanol-soluble factors of *Vicia faba*. 223

SPENCER S. Andrew, SMALL Philip G. & HULL David The effect of overfeeding newborn rabbits on the rate of skeletal maturation, as determined using a radiographic technique. 233

WOODWARD David R. What sort of teenager has low intakes of energy nutrients? 241

NOBLET J., CLOSE W.H., HEAVENS R.P. & BROWN D. Studies on the energy metabolism of the pregnant sow. 1. Uterus and mammary tissue development. 251

CLOSE W.H., NOBLET J. & HEAVENS R.P. Studies on the energy metabolism of the pregnant sow. 2. The partition and utilization of metabolizable energy intake in pregnant and non-pregnant animals. 267

NIELSEN Henrik K., DE WECK D., FINOT P.A., LIARDON R. & HURRELL R.F. Stability of tryptophan during food processing and storage. 1. Comparative losses of tryptophan, lysine and methionine in different model systems. 281

NIELSEN Henrik K., KLEIN A. & HURRELL R.F. Stability of tryptophan during food processing and storage. 2. A comparison of methods used for the measurement of tryptophan losses in processed foods. 293

SINGH Khub & BHATTACHARYYA N.K. Resting heat production in *Bos indicus* and their F_1 crosses with exotic breeds at a thermoneutral environment. 301

RIOTTOT M. & SACQUET E. Increase in the ileal absorption rate of sodium taurocholate in germ-free or conventional rats given an amylomaize-starch diet. 307

LOZEMAN F.J. & MILLIGAN L.P. The effect of lumen conditions on oxygen uptake in perfused omasal laminae. 311

PRICE J. & CHESTERS J.K. A new bioassay for assessment of copper availability and its application in a study of the effect of molybdenum on the distribution of available Cu in ruminant digesta. 323

OLDHAM J.D., NAPPER D.J., SMITH T. & FULFORD Rosemary J. Performance of dairy

cows offered isonitrogenous diets containing urea or fishmeal in early and in mid-lactation. 337

DIXON R.M. & MILLIGAN L.P. Removal of digesta components from the rumen of steers determined by sieving techniques and fluid, particulate and microbial markers. 347

HARRI M. & BROCKWAY J.M. Effect of dietary protein concentration and ambient temperature on the energy, protein and water metabolism of the rat. 363

GREGORY P.C., MILLER S.J. & BREWER A.C. The relation between food intake and abomasal emptying and small intestinal transit time in sheep. 373

LIVESEY Geoffrey Mitochondrial uncoupling and the isodynamic equivalents of protein, fat and carbohydrate at the level of biochemical energy provision. 381

LEIBHOLZ Jane & KIRBY A.C. The utilization by pigs of methionine from five protein concentrates compared with synthetic methionine. 391

WALLACE R.J. Adsorption of soluble proteins to rumen bacteria and the role of adsorption in proteolysis. 399

JUDD Patricia A. & TRUSWELL A.S. The hypocholesterolaemic effects of pectins in rats. 409

MBOFUNG Carl M.F. & ATINMO Tola Zinc, copper and iron concentrations in the plasma and diets of lactating Nigerian women. 427

CUNNANE S.C., MANKU M.S. & HORROBIN D.F. Essential fatty acids in the liver and adipose tissue of genetically obese mice: effect of supplemental linoleic and γ-linolenic acids. 441

CUNNANE S.C., MANKU M.S. & HORROBIN D.F. Abnormal essential fatty acid composition of tissue lipids in genetically diabetic mice is partially corrected by dietary linoleic and γ-linolenic acids. 449

ENGLISH R.M. Breast-milk production and energy exchange in human lactation. 459

MORGAN L.M., TREDGER J.A., MADDEN A., KWASOWSKI P. & MARKS V. The effect of guar gum on carbohydrate-, fat- and protein-stimulated gut hormone secretion: modification of postprandial gastric inhibitory polypeptide and gastrin responses. 467

HAILEMARIAM B., LANDMAN J.P. & JACKSON Alan A. Thiamin status in normal and malnourished children in Jamaica. 477

BUTTE Nancy F., WILLS Cathy, SMITH E. O'Brian & GARZA Cutberto Prediction of body density from skinfold measurements in lactating women 485

COYER Penny, COX M., RIVERS J.P.W. & MILLWARD D.J. The effect of catabolic doses of corticosterone on heat production in the growing rat. 491

SMALLEY Katherine A., ROGERS Quinton R., MORRIS James G. & ESLINGER Loren L. The nitrogen requirement of the weanling kitten. 501

STANOGIAS George & PEARCE G.R. The digestion of fibre by pigs. 1. The effects of amount and type of fibre on apparent digestibility, nitrogen balance and rate of passage. 513

STANOGIAS George & PEARCE G.R. The digestion of fibre by pigs. 2. Volatile fatty acid concentrations in large intestine digesta. 531

STANOGIAS George & PEARCE G.R. The digestion of fibre by pigs. 3. Effects of the amount and type of fibre on physical characteristics of segments of the gastro-intestinal tract. 537

CHERBUT Ch. & RUCKEBUSCH Y. The effect of indigestible particles on digestive transit time and colonic motility in dogs and pigs. 549

LINDBERG J.E. Retention time of chromium-labelled feed particles and of water in the gut of sheep given hay and concentrate at maintenance. 559

WRIGHT A.J.A. & PHILLIPS D.R. The threshold growth response of *Lactobacillus casei* to 5-methyl-tetrahydrofolic acid: implications for folate assays. 569

HEWITT D. & FORD J.E. Nutritional availability of methionine, lysine and tryptophan in fish meals, as assessed with biological, microbiological and dye-binding assay procedures. 575

HILL R. & WALKER D.M. The retention of ^{59}Fe and ^{65}Zn by preruminant lambs given milk-substitutes based on either casein or soya-bean-protein isolate. 587

SOUTHON Susan, LIVESEY G., GEE Jennifer M. & JOHNSON I.T. Intestinal cellular proliferation and protein synthesis in zinc-deficient rats. 595

MCBRIDE B.W. & MILLIGAN L.P. Influence of feed intake and starvation on the magnitude of Na^+, K^+-ATPase (*EC* 3.6.1.3)-dependent respiration in duodenal mucosa of sheep. 605

LEIBHOLZ Jane An evaluation of total and digestible lysine as a predictor of lysine availability in protein concentrates for young pigs. 615

CHANDLER K.D., LEURY B.J., BIRD A.R. & BELL A.W. Effects of undernutrition and exercise during late pregnancy on uterine, fetal and uteroplacental metabolism in the ewe. 625

HUNTER R.A. & SIEBERT B.D. Utilization of low-quality roughage by *Bos taurus* and *Bos indicus* cattle. 1. Rumen digestion. 637

HUNTER R.A. & SIEBERT B.D. Utilization of low-quality roughage by *Bos taurus* and *Bos indicus* cattle. 2. The effect of rumen-degradable nitrogen and sulphur on voluntary food intake and rumen characteristics. 649

VAN DER WESTHUYZEN Justin, VAN TONDER Susan V., GIBSON Jayne E., KILROE-SMITH Terence A. & METZ Jack Plasma amino acids and tissue methionine levels in fruit bats (*Rousettus aegyptiacus*) with nitrous oxide-induced vitamin B_{12} deficiency. 657

DHANOA M.S., SIDDONS R.C., FRANCE J. & GALE D.L. A multicompartmental model to describe marker excretion patterns in ruminant faeces. 663

SEDGMAN Cynthia A., ROY J.H.B. & THOMAS Joanne Digestion, absorption and utilization of single-cell protein by the preruminant calf. Abomasal outflow and its composition from calves given milk substitute diets containing varying amounts of either bacterial or yeast protein. 673

ROOKE J.A., GREIFE H.A. & ARMSTRONG D.G. The digestion by heifers of silage-containing diets fed at two dry matter intakes. 1. Digestion of organic matter and nitrogen. 691
